Product List

Antifoam Agent

Model	Function	Application	Packing details
Tech-341	Silicone Antifoam Agent	Tech-341 has excellent compatibility, low possibility to cause crater, rapid defoaming speed and it could be used in any step of the manufacture of paint.	25 KG/bucket
Tech-367	Silicone Antifoam Agent	Tech-367 has excellent compatibility, very strong defoaming ability. Its crater possibility should be tested when to be used.	25 KG/bucket
Tech-372	Silicone Antifoam Agent	Tech-372 has excellent compatibility, very strong defoaming ability. Its crater possibility should be tested when to be used.	25 KG/bucket
Tech-425	Silicone Free Antifoam Agent	Tech-425 has high efficiency, low possibility to cause crater, special designed for high viscosity system.	25 KG/bucket
Tech-452	Silicone Free Antifoam Agent	Tech-452 has high efficiency, low possibility to cause crater, special designed for high viscosity system, very suitable for the primer with high zinc stearate.	25 KG/bucket
Tech-4057	Silicone Free Antifoam Agent	Tech-4057 has excellent compatibility, low possibility to cause crater, very suitable for UV system and epoxy system.	25 KG/bucket
