Product List

Antioxidant			
Model	CAS No.	Application	Packing details
PINOX 1010	6683-19-8	PINOX 1010 is a sterically hindered phenolic antioxidant. It is a highly effective, non discoloring stabilizer for organic substrates such as plastics, synthetic fibers, elastomers, adhesives, waxes, oils and fats. It protects these substrates against thermo-oxidative degradation.	Plastic bag, 20 KG/PC, 25 PCS/pallet
PINOX 1076	2082-79-3	PINOX 1076 can be applied in polyolefins such as polyethylene, polypropylene, polybutene as well as in other polymers such as engineering plastics, styrene homo- and copolymers, polyurethanes, elastomers, adhesives, and other organic substrates.	Plastic bag, 20 KG/PC, 25 PCS/pallet
PINOX 168	31570-04-4	The application range of PINOX 168 comprises polyolefins and olefin copolymers such as polyethylene(e.g HDPE,LLDPE), polypropylene, polybutene and ethylene-vinylacetate copolymers as well as polycarbonates and polyamides. It can also be used in polyesters, styrene homo and copolymers, adhesives and natural and synthetic tackifier resins, elastomers such as BR, SEBS, SBS, and other organic substrates.	Plastic bag, 20 KG/PC, 25 PCS/pallet
PINOX 802	693-39-7	PINOX 802 used in combination with a primary phenolic antioxidant provides long-term heat stabilization to polymeric materials. With the lowest volatility of all thiosynergists, it combines excellent performance with low odor.	Plastic bag, 20 KG/PC, 25 PCS/pallet
